BATTERY CYLINDER LAWNMOWERS

POWERED BY EGO PEAK POWER TECHNOLOGY

Create a beautiful fine finish on every lawn or sports pitch with the Fortis cylinder lawnmowers powered by EGO. EGO's 56v peak power battery technology delivers optimum power and performance time and time again.

RANGE FEATURES:

1. LCD Display Screen

Fortis lawnmowers powered by EGO come equipped with an LCD operator information display on the control panel. The centrally located screen makes it easy to see your lawnmowers travel speed, the real-time power status of your EGO batteries and also tells you your total working time via an hour meter.

7. Powered by EGO Batteries

EGO's industry-leading 56V ARC Lithium™ battery technology offers a new level of performance, giving your Fortis cylinder lawnmower the power you need to keep working hard until the job's done.

6. Split Roller with Differential

Fortis cylinder lawnmowers come equipped with either a smooth split rear roller, a cast ribbed split roller, or a rubber covered split roller. Driven by the heavy duty drive system, not only does this help create a beautiful striped finish, but the split roller makes the lawnmower more manoeuvrable, reducing scalping.

Feature Focus:

LCD Operator Display Screen

An LCD display screen is integrated into the control panel. This screen gives the user essential information, including travel speed, the real-time power status of your batteries, and a summary of your working time via an hour meter.

EGO Peak Power Technology

EGO's unique 56V ARC Lithium™ batteries are designed to maximise performance. They last longer, charge quickly and deliver optimum power and performance to help produce a fine finish to lawns and sports pitches.

Heavy-Duty Drive System

Our heavy-duty-drive system on the Cobra Fortis range offers improved performance and increased durability. For use with our Fortis interchangeable cartridge system giving ease of user maintenance and adjustment.

2. Power & Safety at your Fingertips

The ergonomically positioned mowing controls and operator dashboard provide improved efficiency and user control. The removeable lawnmower starter key is also used as a battery release for increased safety.

3. Large Capacity Grass Box

Grass box capacity ranges from 55-90ltr in the Fortis range meaning more grass gets packed in and less trips to the compost bin for emptying. Fortis grass boxes are high quality, durable and robust.

4. Optional Front Grooved Roller

The optional front grooved roller has less surface area in contact with the ground, and as a result more grass is presented to the bottom blade. The result is a cleaner cut to your lawn.

5. Optional Turf Rake

The optional turf rake can help improve cutting performance. With the rake fitted, grass blades are lifted resulting in a cleaner and more precise cut.

Fortis **FORTIS14E KIT**

14" Cylinder Lawnmower Powered by EGO Peak Power

The Cobra Fortis 14E has a 14" 6 bladed cutting cylinder and is powered by Ego 56v Peak Power Technology. This feature packed lawnmower has variable height adjustment from 6mm - 30mm, steel front and rear rollers for a beautiful striped finish, a heavy duty drive system, and is compatible with the full set of Fortis lawncare cartridges.

Fortis 20E Overview

Fortis Complete Lawncare Cartridge System

The Cobra Fortis has a range of interchangeable lawncare cartridges available which allows you to easily convert your mower to suit different lawn maintenance needs. For example, you can switch from a 6-bladed cutting cylinder for general mowing to a scarifier cartridge for thatch removal or a verticutter cartridge for aeration.

We offer a selection of seven lawncare cartridges including the 6-bladed cylinder, 10-bladed cylinder, scarifier, aerator, dethatcher, verticutter, and lawn brush. Cartridges are compatible with all models.

Expertly Powered by EGO

Powered by EGO's unique 56V ARC Lithium™ battery technology.

Large Capacity Grass Box

The 75ltr robust grass box is ideal for collecting large amounts of grass.

Heavy-Duty Drive System

The Fortis heavy-duty drive system offers improved performance and durability.

Easy Height-of-Cut Adjustment

Easily adjust your cutting height from 6 - 30mm for the perfect finish.

Operator Comfort Controls

The comfort controls are positioned to make your Fortis a pleasure to use.

For a Beautiful Striped Finish

The split cast rear roller helps create beautiful, defined stripes on your lawn.

25" Cylinder Lawnmower Powered by EGO Peak Power

The Fortis 25E is the largest model available in this range and is powered by EGO 56V Peak Power. It features a 25" 6 bladed cutting cylinder and comes with a generous 90ltr grassbox. This is a perfectly balanced lawnmower designed specifically for fine-turf and is an excellent option for larger gardens and sports pitches.

FINE TURF CYLINDER LAWNMOWERS

FOR PERFECT LAWNS AND SPORTS PITCHES

The Fortis Fine Turf range stands unrivaled when it comes to high-quality, professional cylinder mowers. Crafted with precision, these mowers are the epitome of excellence for large lawns and sports pitches.

1. LCD Display Screen

Fortis lawnmowers powered by EGO come equipped with an LCD operator information display on the control panel. The centrally located screen makes it easy to see your lawnmowers travel speed, the real-time power status of your EGO batteries and also tells you your total working time via an hour meter.

7. Powered by EGO Batteries

EGO's industry-leading 56V ARC Lithium™ battery technology offers a new level of performance, giving your Fortis cylinder lawnmower the power you need to keep working hard until the job's done.

6. Split Roller with Differential

Fortis cylinder lawnmowers come equipped with either a smooth split rear roller, a cast ribbed split roller, or a rubber covered split roller. Driven by the heavy duty drive system, not only does this help create a beautiful striped finish, but the split roller makes the lawnmower more manoeuvrable, reducing scalping.

5. 10 Bladed Cutting Cylinder

The 10-bladed cylinder cartridge comes as standard on the Fortis Fine Turf models and delivers an even more precise low cut of 3.0mm that looks great and promotes a healthier lawn. The 10-bladed cartridge is ideal for regular mowing of the lawn or sports pitch and for creating that superb fine finish.

2. Power & Safety at your Fingertips

The ergonomically positioned mowing controls and operator dashboard provide improved efficiency and user control. The removeable lawnmower starter key is also used as a battery release for increased safety.

3. Large Capacity Grass Box

Grass box capacity ranges from 75-90ltr in the Fortis range meaning more grass gets packed in and less trips to the compost bin for emptying. Fortis grass boxes are high quality, durable and robust.

4. Precise Height Adjustment

By simply turning the easily adjustable height-of-cut knob, mowing heights can be adjusted from 3-30mm giving an incredibly fine finish to your lawn. Fortis Fine Turf lawnmowers cut shorter because they utilise a reel of 10 blades that rotate against a fixed blade, creating a scissor-like action that cleanly cuts each blade of grass.

Feature Focus:

EGO Peak Power Technology

EGO's unique 56V ARC Lithium™ batteries are designed to maximise performance. They last longer, charge quickly and deliver optimum power and performance to help produce a fine finish to lawns and sports pitches.

Turf Rake as Standard

The turf rake comes as standard on the Fortis Fine Turf models and can help to improve grass cutting performance. With the rake fitted, grass blades are lifted resulting in a cleaner and more precise cut.

Front Grooved Roller

The grooved roller is standard on the Fortis Fine Turf models. This roller has less surface area in contact with the ground, and as a result more grass is presented to the bottom blade. The result is a cleaner cut to your lawn.

FORTIS20FTE KIT

20" Fine Turf Cylinder Lawnmower Powered by EGO Power

Powered by Ego 56v battery technology, the Fortis 20FTE is designed for larger lawns where a high-quality finish and long lasting, defined stripes are a priority. Its heavy-duty construction ensures precision cutting over an extended period of time and the well-balanced chassis, 10 bladed cylinder and grooved roller make this ideal for serious home gardeners, semi-professionals and sports groundscape.

Fortis LAWNCARE CARTRIDGE RANGE

THE FORTIS COMPLETE LAWNCARE SYSTEM

6 Additional interchangeable lawncare cartridges that take the hard work out of garden maintenance all year round. Whatever the garden task, the Fortis cartridge range will have a tool to complete the job with ease.

Cobra Fortis lawnmowers have a range of interchangeable lawncare cartridges available which allow you to easily convert your mower to suit different lawn maintenance tasks. For example, you can switch from a 6-bladed cutting cylinder for general mowing to a scarifier cartridge for thatch removal or a verticutter cartridge for removing of lateral growth and coarser grasses.

The Fortis lawncare cartridge system is a versatile system available for all Fortis lawnmower models. Cartridges are fitted with the minimum of effort and including the standard 6-bladed cylinder, 10-bladed cylinder, scarifier, aerator, dethatcher, verticutter, and lawn brush that will keep your lawn looking its finest throughout the year. Whatever the garden task, the Fortis cartridge range will have a tool to complete the job.

Fortis | SCARIFIER

Remove Thatch & Moss for a Healthier Lawn

The spring tine scarifier cartridge is the ideal tool to remove thatch and moss from your lawn. Using the scarifier cartridge can help to promote a healthier, more attractive lawn, while also reducing the need for fertilisers and weed control products.

USE
All Year
Round

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B

Fortis | 10 BLADE

For an Even Lower 3.0mm Cut on your Lawn

Made of hardened ground steel, the 10-bladed cylinder cartridge delivers an even more precise low cut of 3.0mm that looks great and promotes a healthier lawn. Ideal for regular mowing of the lawn and for creating that bowling green finish.

USE
March
October

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B

Fortis | AERATOR

Create a Healthier, Thicker and Luscious Lawn

The Fortis aerator cartridge creates tiny holes in the soil, allowing air, water, and nutrients to penetrate more effectively into the root zone. This facilitates deeper root growth, resulting in a denser, healthier, and more luxurious lawn.

USE
March
Nov

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B

Fortis | LAWN BRUSH

Easily Remove Garden Debris from your Lawn

The Fortis lawn brush cartridge can be used for various tasks, including removing debris on the lawn surface such as leaves and worm casts. This can also be used as a grooming brush to enhance the presentation of a lawn without mowing, along with a light top dressing into the turf.

USE
All Year
Round

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B

Fortis | DETHATCHER

Removes Denser Areas of Thatch & Moss

The dethatcher cartridge functions with the blades penetrating into the surface of the soil to eliminate the densest layers of thatch, dead grass, leaves and weeds. By removing thatch, lawns become healthier, thicker, and more vibrant.

USE
Feb/Mar
Sep/Oct

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B

Fortis | VERTICUT

Promote New Grass Growth & Remove Thatch

The closely spaced and slim steel blades on this verticut cartridge are effective in lifting/cutting laterally growing grasses, eliminating moss, whilst pruning the grass plant to stimulate new growth promoting a healthier lawn.

USE
April
October

Fits: Fortis 14L / Fortis 17B / Fortis 20B / Fortis 25B
