

40V MAX⁺ LITHIUM-ION

ONE BATTERY, ENDLESS POTENTIAL FUTURE-READY POWER. TODAY.

COBRA

THE NEW 40V MAX PLUS BATTERY SYSTEM

Cobra's 40v cordless machines have evolved....Introducing Cobra's 40V MAX PLUS Battery System for 2025, the ultimate solution for power, convenience and eco-friendly gardening.

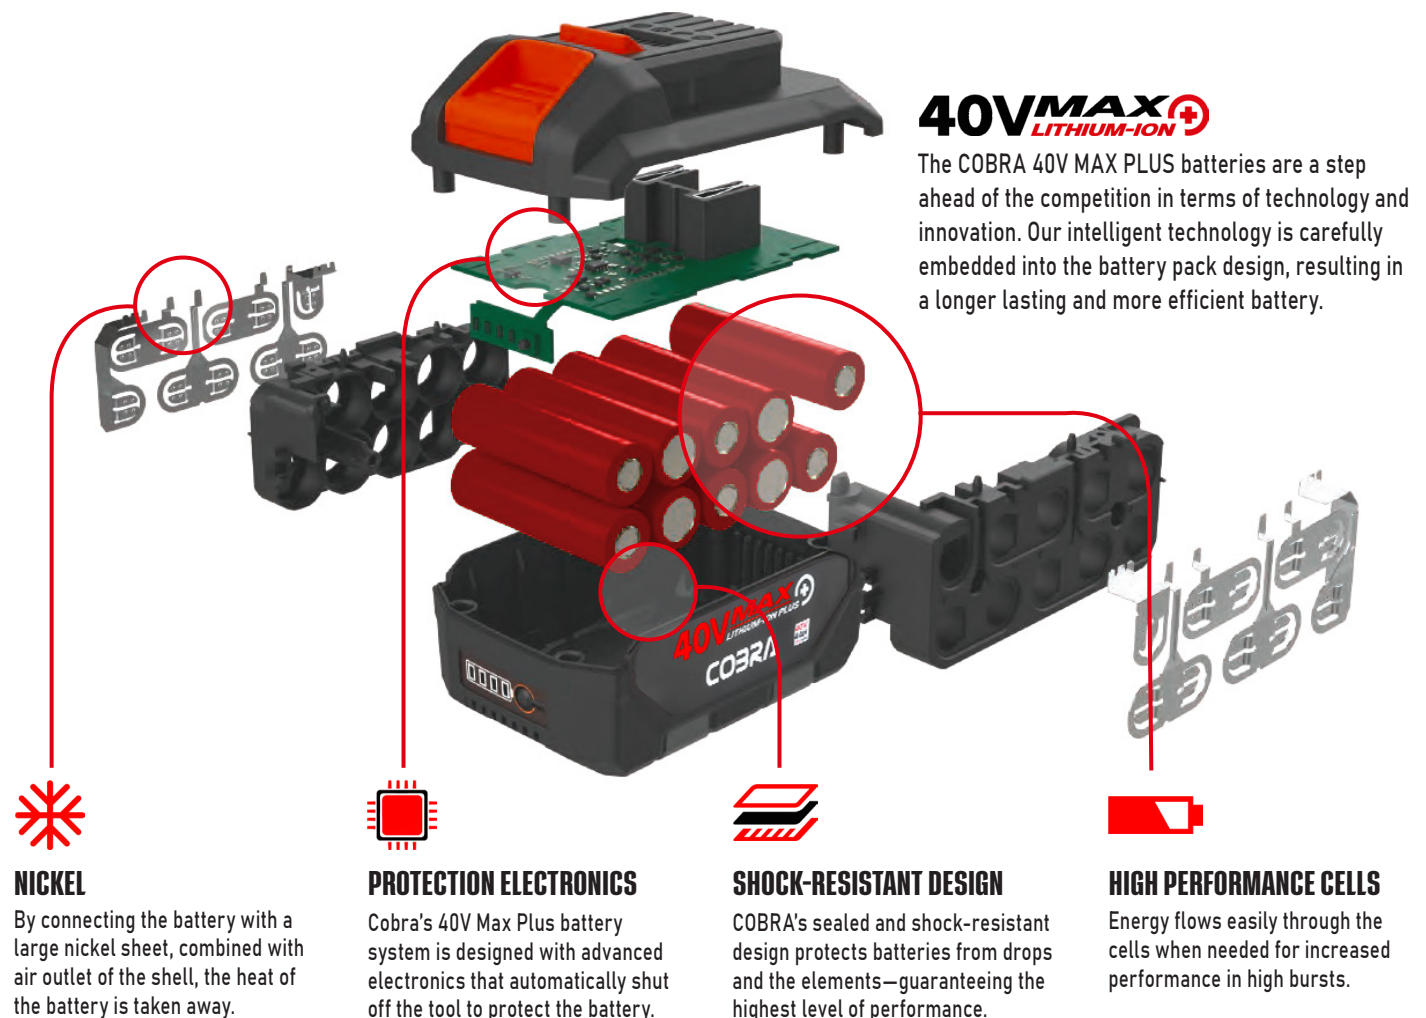

This advanced lithium-ion technology powers a comprehensive range of garden tools, including lawnmowers, trimmers, blowers, chainsaws, and a versatile 5-in-1 multi-tool. The 40V Max Plus battery is engineered for seamless compatibility across Cobra's entire 40VX range, eliminating the need for multiple chargers and batteries. With Cobra's 40V MAX PLUS battery system, you can enjoy long-lasting power and quick recharging, making your gardening experience a pleasure.

Please Note: New 40v MAX PLUS batteries are not compatible with original 40v machines.

40V MAX⁺ LITHIUM-ION

40V MAX⁺ LITHIUM-ION

THE ARCHITECTURE OF THE 40V MAX PLUS BATTERY.

MORE INTELLIGENT POWER. LONGER RUNTIME. FASTER CHARGING

POWERS ALL 40V MAX PLUS TOOLS

With the convenience of universal battery compatibility, you can use the 40v Max Plus battery in any tool in the current Cobra 40v MAX PLUS lineup.

RUNS LONGER - CHARGES FASTER

Featuring the most advanced battery technology, COBRA delivers or exceeds the power of petrol—all without the noise, fuss, and fumes.

THE POWER & PERFORMANCE OF PETROL

COBRA's battery technology maximises power and run times. Industry-leading recharge times can get you back to work in as little as 50 minutes.
