Feel the Power!

ABOUT US

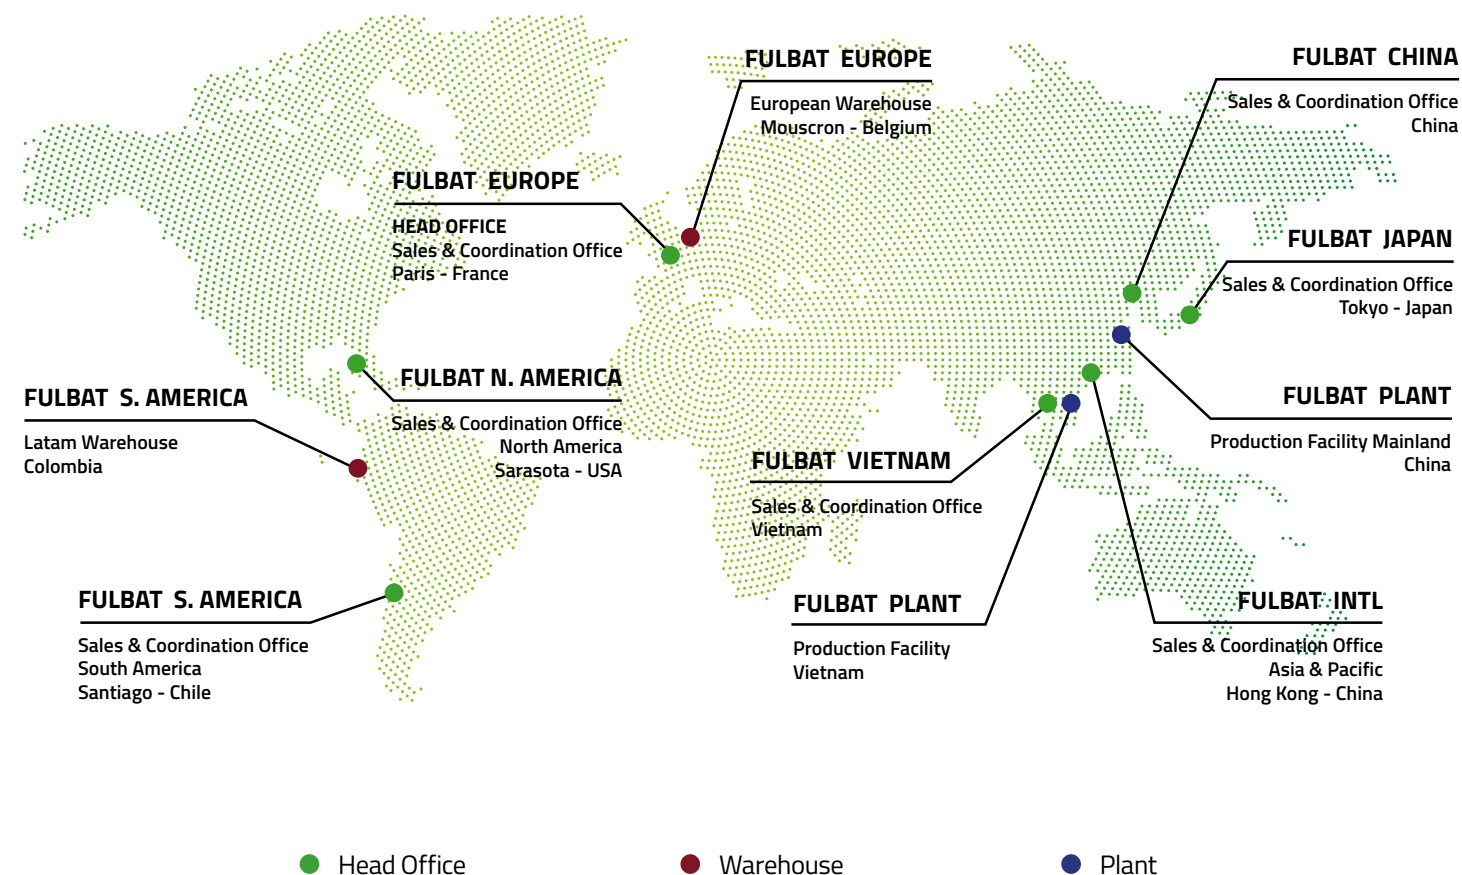

French based company, Fulbat is a leading force in the battery business, present in both replacement and OEM markets. Founded in 2005, we are constantly developing, manufacturing, marketing and selling lead-acid batteries, as well as lithium batteries and battery chargers.

With our technical knowledges and experience, we are able to design new innovative battery solutions to meet the current customers' expectations. We offer an exhaustive program of Starter batteries, Industrial batteries and Motive Power batteries, covering a full range of application. Our Starter Battery range is designed to cover all powersport applications and Lawn & Garden applications.

Fulbat batteries and chargers are widely distributed on all continents through a strong distributor's network, and are very well recognized as qualitative, performing and reliable products.

Manufactured according to the most innovative production processes, Fulbat products are certified by ISO 9001, ISO 14001 and TS 16949.

WORLDWIDE PRESENCE

INTRODUCTION

No matter what type of vehicle you have or how you use it, our wide range of starter batteries has been developed to satisfy all current market requirements.

Composed of a comprehensive line of batteries, Fulbat Starter Battery offers different technologies: SLA, Ca/Ca, DRY, VRLA & ROBOT.

Fulbat batteries will provide multiple and varied benefits: high starting performance, light weight, ready to use, maintenance free, vibration resistance and many others, whether for leisure or professional use.

From 1st February 2021, a new EU regulation for the sale of acid for batteries came into force. On that date, the sale of electrolyte for batteries (sulfuric acid), has been prohibited to end users (non-professionals), and only professionals are now entitled to acquire batteries with an electrolyte pack.

As a battery specialist, Fulbat maintains all its product ranges and offers the widest ready to use battery range.

APPLICATIONS

Fulbat Starter Battery covers the wide majority of lawn & garden applications.

LAWN & GARDEN

ROBOT

SLA RANGE

Ready to use & non-spillable

SLA battery range is designed to offer maximum performance and safety! Ready to use, the Sealed Lead Acid (SLA) battery will not require any acid handling, initial preparation or maintenance. Its non-spillable design linked to its high performance make it the ideal battery for all ride-on mowers.

FEATURES

- ✓ AGM technology (factory activated)
- ✓ Ready to use
- ✓ 100% maintenance free
- ✓ Non-spillable: easy to ship
- ✓ Higher cycle life
- ✓ Ultra safe & highly vibration resistant
- ✓ Minimized plate sulfation
- ✓ Suitable for cold weather

COMPATIBLE CHARGERS

- ✓ Fulload 1000
- ✓ Fulbank 2000
- ✓ Fulload F4

NON-SPILLABLE

Ca/Ca RANGE

Ready to use

Calcium/Calcium battery range is designed to offer higher starting power and a longer service life. Ready to use and easy to install, Ca/Ca battery will not require any acid handling. Its design allows it to have a low water consumption and no maintenance will be necessary during its entire service life.

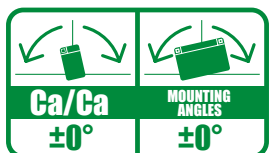

FEATURES

- ✓ Calcium technology
- ✓ Ready to use
- ✓ 100% maintenance free
- ✓ Increased power & extended service life
- ✓ High vibration resistance
- ✓ Lightweight polypropylene container
- ✓ Heat-sealed container with flat top cover
- ✓ Venting systems
- ✓ Handle & "magic eye" charge indicator

COMPATIBLE CHARGERS

- ✓ Fulload 1000
- ✓ Fulbank 2000
- ✓ Fulload F4

Designation	P/N	Voltage (V)	Capacity Ah (10h)	Capacity Ah (20h)	CCA (A)	Dimensions (±2mm)			Polarity	Terminal 3D

DRY RANGE

Easy to store

DRY battery range is designed to offer reliable starting power. Delivered with an acid pack, the DRY battery must be activated before the first use and must be checked periodically. DRY charged construction, no maintenance is necessary during a long period of storage.

VRLA RANGE

General purpose applications

VRLA batteries are general purpose batteries with 5 years design life in float service. With advanced AGM valve regulated technology, these batteries ensure high performance and reliability. They can also be used for light cycling use.

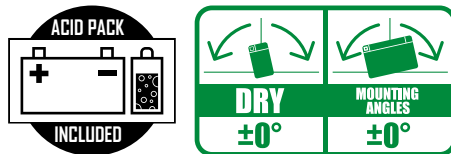

FEATURES

- ✓ DRY charged technology
- ✓ Activation before first use
- ✓ Periodically maintenance and refilled if necessary
- ✓ Upright installation only
- ✓ Regular life duration
- ✓ Unlimited shelf life

COMPATIBLE CHARGERS

- ✓ Fulload 1000
- ✓ Fulbank 2000
- ✓ Fulload F4

FEATURES

- ✓ AGM technology
- ✓ 100 % maintenance free (VRLA design)
- ✓ Non-spillable: easy to ship
- ✓ Deep discharge protection
- ✓ No corrosion
- ✓ Multi-positional fitment
- ✓ Low gassing
- ✓ Long shelf life
- ✓ Very good cycling and stationary performance

COMPATIBLE CHARGERS

- ✓ Fulload 1000
- ✓ Fulbank 2000
- ✓ Fulload F4

ROBOT RANGE

Powerful & safe

FL Series is a complete range of batteries for robot mowers specially designed for intensive charge and discharge use. Equipped with high-quality and high-capacity lithium cells, this range thus offers the robot great autonomy in working.

FEATURES

- Compatible battery type
- High cycle life
- High autonomy: capacity sometimes higher than the original battery
- High quality lithium cells
- Very safe thanks to integrated BMS
- More than 200 models of robots covered

CHARGERS

Whether it is to charge or maintain lead-acid or lithium batteries (LiFePO4), Fulbat chargers will be able to answer all your needs, from the smallest battery to the largest capacity. Designed with different charging stages, our automatic smart chargers will guarantee optimum charging efficiency and safety.

CHARGERS

FULLLOAD 1000 (P/N: 750514)

BATTERY COMPATIBILITY: LEAD-ACID & LITHIUM
VOLTAGE: 6V/12V
CHARGING RATE: 1A
STAGES: 3

- Charges and maintains 6V/12V lead-acid batteries (GEL, AGM, MF, DRY, Ca/Ca, WET) and 12V LiFePO4 batteries
- 1A charging current with battery capacity up to 20Ah (maintains all sizes)
- 4 charge modes
- Easy to set up & use: connect, select a charge mode and forget
- Easy to read LED display
- Full protected against short circuit, wrong connections, overcharge and overheat
- Delivered with: 1 clamps set and 1 eyelet terminals set

FULBANK 2000 (P/N: 750547)

BATTERY COMPATIBILITY: LEAD-ACID & LITHIUM
VOLTAGE: 6V/12V
CHARGING RATE: 3X2A
STAGES: 4

- Charges & maintains 3 batteries with different voltage and technologies at once
- 2A per bank with battery capacity up to 40Ah (120Ah in maintenance)
- For all batteries: GEL, AGM, MF, DRY, Ca/Ca & LiFePO4
- Easy to read LED display
- Full protected against short circuit, wrong connections, overcharge and overheat
- Splash & dust proof (IP65)
- Delivered with: 3 clamps and 3 fused connection set

FULLLOAD F4 (P/N: 750515)

BATTERY COMPATIBILITY: LEAD-ACID & LITHIUM
VOLTAGE: 6V/12V
CHARGING RATE: 2-4A
STAGES: 8

- Charges and maintains 6V/12V lead-acid batteries (GEL, AGM, MF, DRY, Ca/Ca, WET) and 12V LiFePO4 batteries
- 2A or 4A charging current with battery capacity up to 80Ah (maintains all sizes)
- 7 charge modes including 12V repair mode
- Easy to set up & use: connect, select a charge mode and forget
- Easy to read LED display
- Full protected against short circuit, wrong connections, overcharge and overheat
- Delivered with: 1 clamps set and 1 eyelet terminals set

ASSEMBLY PARTS (P/N: 750518)

BOX CONTENT:
2x BLACK RAILS
12x SCREWS
12x BOLTS FASTENING

- To mount up 2 Fulbank 2000 chargers on to battery display
- Up to 6 batteries charged at once
- Ideal to create a small charging station

BOOSTER

TESTER & ACCESSORIES

These accessories are ideal for the maintenance of all our ranges of batteries. Whatever your type of application (motorcycle, scooter, quad, jet-ski, lawn mower, etc.), you will always find the Fulbat accessory to maximize your battery's performance.

FULBOOST (P/N: 750553)

FUNCTION: BOOSTER, POWERBANK & LIGHT
CAPACITY: 4AH
START CURRENT: 800A
PEAK CURRENT: 1600A

- Compact & powerful lithium booster rated at 1600A
- For vehicles equipped with a 12V Lead-acid battery
- Designed for gas engines up to 7.0L and diesel up to 6.0L
- Ultra-safe thanks to smart cables technology : spark-proof, short-circuit & reverse polarity protection
- Charger for all types of USB devices
- Ultra-bright 150 lumens LED flashlight with 3 modes: constant, SOS, flash

BOOSTER

For 12V vehicles

POWER BANK

For all electrical devices

TORCH

3 light modes

FULTEST 1 (P/N: 750502)

FUNCTION: BATTERY & ALTERNATOR TESTER

- For 12V lead-acid batteries only
- Test the condition of the battery and alternator
- Control the right starting ability of the vehicle
- The ideal tool to verify the state of charge of the battery

FULTEST 2 (P/N: 750521)

FUNCTION: BATTERY & ALTERNATOR TESTER

- For all 12V vehicle and motorcycles batteries (lithium & lead-acid)
- 3 battery tests: cold cranking amps, voltage, internal resistance
- Alternator and cranking system test
- Easy to read thanks to the large LCD screen

FULCONNECT INDICATOR (P/N: 750516)

FUNCTION: BATTERY TESTER

CHARGERS COMPATIBILITY: FULLOAD 1000 / FULLOAD F4 / FULBANK 2000

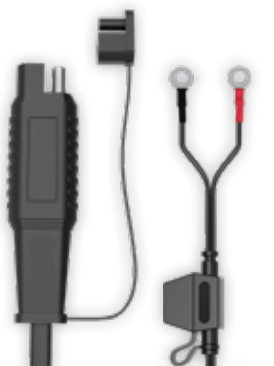

- For 12V lead-acid batteries only
- Ideal solution if the battery is difficult to access
- To check the state of charge of the battery with its 3 integrated LEDs: green, orange, red
- Wire length: 500mm
- M8 eyelet terminal

FULCONNECT (P/N: 750507)

CHARGERS COMPATIBILITY: FULLOAD 1000 / FULLOAD F4 / FULBANK 2000

- For 12V lead-acid & lithium batteries
- Ideal solution if the battery is difficult to access
- Wire length: 600mm
- M6 eyelet terminal

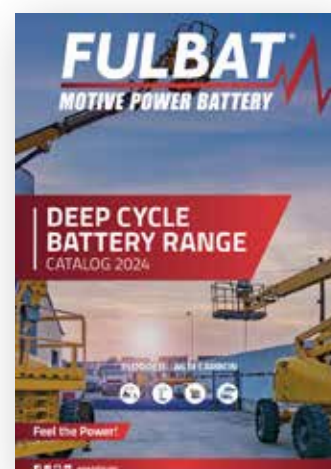

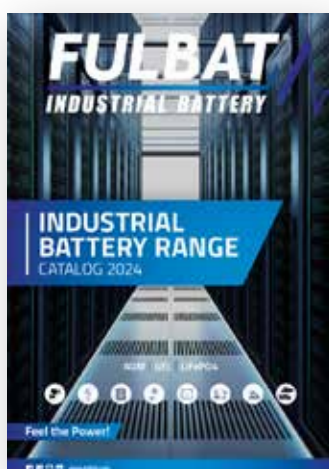

The logo for Fulbat features the word "FULBAT" in a large, bold, black, italicized sans-serif font. A registered trademark symbol (®) is positioned at the top right of the text. Below the text, a green line graph element starts as a horizontal line and then rises sharply in a jagged, upward-pointing fashion. The background is a light gray with a faint, repeating pattern of tire tracks.
