Advanced Battery Lithium Technology

Introducing the revolutionary Webb Eco Cordless Battery Range

Where power meets eco-friendliness. Webb Eco brings you the might of petrol-powered equipment minus the disruptive noise, cumbersome maintenance, and harmful emissions.

Embrace a cutting-edge 20V lithium battery technology that elevates your gardening experience, empowering you with unparalleled performance. With Webb Eco, you'll have the power required to tirelessly tackle your gardening tasks until completion, all while enjoying impressive run times and rapid charging. Just snap the battery in place, and you're primed to dive into your gardening projects.

Why change to battery power?

Cutting-Edge 20V Battery Power

Experience the might of our 20V Lithium-ion technology, delivering power and performance on par with traditional petrol options.

Eco-friendly

Our 20V Lithium-ion battery delivers power without the hassle and harmful emissions, ensuring a cleaner, greener environment during use.

Effortless Setup

Simply snap in the battery, and you're ready to dive into your gardening tasks with ease.

Cost-Efficient

Opting for lithium-ion batteries significantly reduces operational costs compared to using petrol.

BBC Gardeners' World rated this lawnmower its 'Best Buy' of 2024, scoring 4.8/5 for best ease of use. The latest addition to the Webb Eco range was praised for its quiet, comfortable and smooth handling.

Cordless Range of Garden Tools

Webb Eco WEV20LTB2 20V 30cm Cordless Line Trimmer

Lightweight and easy-handling

Perfect for achieving precise lawn edge trimming in smaller gardens, this 20V grass line trimmer truly stands out. Its lightweight build, whisper-quiet operation, and intuitive design make it an excellent choice. To enhance control, the loop handle empowers you to guide the trimmer exactly where it's needed. Additionally, the extendable shaft adds extra versatility, while the adjustable mowing head can be easily rotated, making it particularly useful for vertical edge trimming tasks.

Classic Wheelbarrow

With Puncture-proof Tyre

Webb 90 Litre Poly Body Wheelbarrow In A Box WEWB90

Introducing the Webb Wheelbarrow – this versatile wheelbarrow is designed to easily handle various building and gardening applications. Its sturdy steel frame ensures durability, while the spacious 90-litre tub provides ample capacity.

With the puncture-proof tyre, you can say goodbye to unexpected flats and confidently navigate various terrains. The ergonomic grip handles further enhance the overall handling, allowing for comfortable and controlled manoeuvrability.

Whether you're transporting garden waste, soil, mulch, rocks, or construction materials, the Webb Wheelbarrow is your reliable companion. Experience the convenience and efficiency of this practical tool, designed to make your tasks more manageable and efficient.

Wheelbarrow arrives in a box for easy purchase.

Comfortable grip handles

90-Litre tub capacity

Durable steel frame

150kg load capacity

Puncture-proof tyre

We know picking out a lawnmower can be confusing!

Our aim is to empower you to make an informed decision, ensuring that you choose the right lawnmower that aligns perfectly with your requirements...

Electric Start

Forget about strenuous pull-starts and get mowing with zero hassle when you get your hands on an advanced electric-start machine.

Rear Roller

Our line of rear-roller machines will lay-down a traditional British stripe as you mow. The roller also has the advantage of enabling you to cut up to and over the lawn edge, thereby doing away with the need to tidy-up with a strimmer.

Single Lever Height Adjustment

All of our Webb rotary-mowers feature a single height-adjustment lever - this is the quickest and easiest way to adapt to the condition of your lawn; simply set the lever to the required height and start mowing!

Mulch Plug

A mulch plug enables you to recycle grass-clippings back into the soil. Once you have your mower equipped with a mulch plug, clippings are not collected, but are instead finely chopped and forced at high speed into the turf where they'll be practically invisible. The decomposing clippings then return nutrients to the soil, meaning you'll be simultaneously mowing and fertilising.

Metal Blades

Metal blades are generally sharper than plastic ones, which means cleaner, neater and more precise results with less stress on the grass. They can also be easily sharpened for increased blade-life.

Side Discharge

The side-discharge chute is perfect if you're mowing those rougher areas of your garden where collection isn't required. You simply lift the side-discharge flap, add the chute, fit the mulch plug, and you're ready to go!

Wash Port

Most of our Supreme mowers are fitted with a deck-wash port that makes it quick and easy to remove corrosive, performance-limiting debris from the under-deck area after mowing. All that's required is to hook-up a hosepipe, turn-on the tap, run the engine briefly, and the job's done!

Cylinder Blades

It's an indisputable fact that cylinder blades deliver a superior cut compared to that produced by a rotary blade. This is because the grass is forced between the spinning cylinder-blades and the fixed straight blade, enabling it to be cut with a super-clean 'scissor'-like action. The sole disadvantage of the cylinder blade is that they're only suited for flat, uniform and stone-free lawns.

Quick Release Folding Handles

Models within the Supreme lawnmower ranges come equipped with quick-release handlebars, which fold down to make the machine more compact ready for storage or transport.

Lawnmowers

Quality British-designed lawnmowers that are simple to use and easy to maintain

If you're serious about your garden, you need a lawn mower that's as dedicated as you are. Our lawn mowers are designed to make your gardening life easier.

With options like manual, petrol, electric, and cordless models, there's something for every lawn. Plus, they're super easy to use and maintain, so you can spend more time enjoying your garden.

Cylinder Mowers

For the traditional cut

Webb 46cm (18") 'Contact Free' Sidewheel Lawnmower WEH18

With no cable to hold you back, no noisy engine to disturb your neighbours and a widest-in-class 46cm cut, this traditional hand-push cylinder-mower from Webb is the ideal choice for those maintaining a large lawn in a built-up residential area. Its contactless blade design reduces wear for stay-sharp durability; while its rear-roller will furnish your lawn with an attractive striped finish. The Webb WEH18 comes with a roomy grass-collector and weighs a mere 21kg.

Eco-friendly

3 Piece plastic rear rollers

30cm (12") 6 bladed cutting cylinder

17 Litre collection box

Tool free height adjustment

Webb 30cm (12") 'Autoset' Sidewheel Lawnmower WEH30

From top British brand Webb, the WEH30 Side-Wheel Hand-Mower combines an ultra-compact 30cm cut with a straightforward hand-push design to make it a great choice if you're looking after a small lawn in a noise-sensitive area. It comes with a front-mounted catcher, so you won't have to rake-up clippings; and it offers four preset cutting-heights for the creation of a 'just so' finish. Weighs just 9.1kg.

30cm (12") Roller Hand Lawnmower WEH12R

Boasting a precision-machined five-blade cylinder and a large rear-roller, this design-classic from long-established British brand Webb will produce a super-neat striped finish that will be the envy of your neighbours! Durability-features include a chain-drive and a steel/alloy deck; convenience-features include tool-free cylinder-adjustment and an 18-litre grassbag. The Webb WEH12R weighs-in at only 11.1kg.

Large rear roller for stripes

30cm (12") 5 bladed hardened steel cutting cylinder

18 Litre collection bag

Tool free cylinder setting

Zinc plated steel front roller

Classic Electric Mowers

Convenient and simple mowers

Supreme Electric Rear Roller Mowers

Perfect striped lawn

Transforming the chore of lawn maintenance
into a seamless, precision-driven experience.

Webb Supreme 33cm Electric Rotary Lawnmower with Rear Roller WEER33RR

The WEER33RR Webb Supreme 33cm Electric Rotary Lawnmower with Rear Roller is the ultimate solution for maintaining small to medium-sized lawns with efficiency and precision. Equipped with a robust 1200W electric motor, this lawnmower ensures powerful performance, effortlessly tackling grass of varying lengths to deliver a clean, uniform cut every time.

One of its standout features is the 33cm cutting width, which allows you to cover more ground in each pass, significantly reducing the time and effort required for mowing. Whether you prefer a luscious, longer lawn or a manicured, shorter look, the lawnmower's five-cut height settings cater to your preferences, providing versatility in lawn maintenance.

The inclusion of a rear roller serves a dual purpose: not only does it create classic striped patterns that enhance the visual appeal of your lawn, but it also offers stability and control during manoeuvring. This feature ensures a professional finish, even in challenging terrain.

Easy fold compact
vertical storage

12 Metre power cable

30 Litre collection bag

Rear roller

5 Cutting heights

Single lever height adjustment

Metal cutting blade

Its rear roller crafts professional striped finishes

Webb Supreme 37cm Electric Rotary Lawnmower with Rear Roller WEER37RR

The Webb Supreme 37cm Electric Rotary Lawnmower with Rear Roller is a powerhouse for medium-sized lawns. With a 1600W motor and 37cm cutting width, it offers 6 cutting heights for a tailored finish. The rear roller creates professional stripes, and the 40L collection box minimises downtime. At 10.8kg, it's effortlessly manoeuvrable and comes with a 3-year guarantee.

Soft grip handles

Webb Supreme 40cm Electric Rotary Lawnmower with Rear Roller WEER40RR

The WEER40RR Webb Supreme 40cm Electric Rotary Lawnmower is a powerhouse designed to elevate your lawn maintenance experience, catering perfectly to medium to large-sized lawns. With an impressive 1800W electric motor at its core, this lawnmower provides robust cutting force, effortlessly handling even the most challenging grass types, ensuring a precise cut every time.

Offering six cutting height settings ranging from 25mm to 75mm, this mower allows for customisable lawn care, accommodating preferences for a shorter lawn or a slightly longer appearance.

The inclusion of a rear roller not only creates visually appealing striped patterns on the lawn but also offers stability and control while manoeuvring the mower.

Classic Petrol Mowers

Quality and Value Range

Built With Quality And Value In Mind

Webb Classic mowers have been designed and built with quality and value in mind. Featuring durable steel cutter-decks, large mesh collection-bags and sharp, clean-cutting metal blades, these machines are great if you're just starting-out with a garden.

Steel Deck

Our 'Classic'-range petrol lawnmowers are based around steel decks these are lightweight and resistant to impact damage and corrosion.

Webb Engines

Webb overhead valve engines power all of the lawnmowers in this range. These four stroke air cooled motors have many benefits compared to older 'flathead' types, including improved emissions-performance and reduced oil consumption.

Metal Blades

Metal blades are generally sharper than plastic ones, which means cleaner, neater and more precise results with less stress on the grass. They can also be easily sharpened for increased blade life.

WARNING

- Petrol is highly flammable and explosive.
- Turn engine off and let it cool before refueling.
- The engine emits toxic carbon monoxide.
- Do not use in an enclosed area.
- Read Owner's Manual before operation.

Webb Classic 41cm (16'') Petrol Rotary Lawnmower WER410HP

Combining a compact 41cm cut with a low-weight build (25kg) and hand-propulsion, the British-designed Webb WER410HP 'Classic' will prove a great buy if you're maintaining a smaller lawn where manoeuvrability is key. Attractive features include a steel cutter-deck for rugged robustness; single-lever height-of-cut adjustment for ease of use; and fold-down handlebars for convenient storage. Power comes from a Webb DVO130 132cc Engine.

Engine powered by:

Webb Classic 41cm (16'') Self Propelled Petrol Rotary Lawnmower WER410SP

Offering effort-saving self-propulsion and boasting a compact 41cm working-width, this classic petrol rotary-mower from trusted British brand Webb will come into its own on smaller lawns with slopes and/or rough-grass areas to negotiate. Quality features include simple single-point cutting-height adjustment; a space-saving foldable handlebar; and a powerful but fuel-efficient Webb DVO130 132cc Engine. The Webb WER410SP is built around a robust steel deck, but nevertheless weighs-in at just 26kg.

Engine powered by:

Webb Classic 46cm (18'') Self Propelled Petrol Rotary Lawnmower WER460SP

With its sizeable 46cm cut, large 55-litre-capacity grassbag and self-propelled drive, the UK-designed Webb 'Classic' WER460SP will get you around a more substantial lawn quickly and with minimal effort expended. It boasts a seven-stage height-of-cut range, and four cutting methods so you'll be able to achieve your desired finish; and it features a beefy Webb DVO140 141cc engine that's characterised by its low-emission performance and superior fuel-economy. This steel-decked model weighs just 34kg.

Engine powered by:

Webb Classic 51cm (20'') Self Propelled Petrol Rotary Lawnmower WER510SP

A wide 51cm cut works with power-driven rear-wheels to make the British-designed Webb WER510SP 'Classic' a great choice for gardeners looking to quickly cover a large area with minimal effort expended! It is superbly well-equipped, featuring as it does four-in-one mowing; a large-displacement Webb DVO173 173cc Engine; a downtime-cutting 65-litre grassbag; and large, manoeuvrability-enhancing drive-wheels. The following cutting-options are provided: bagging; mulching; side/rear-discharge.

Engine powered by:

Electric Start Petrol Lawnmower

Webb Classic 46cm (18'') Self Propelled Electric Start Petrol Rotary Lawnmower WER460ES

Get mowing the hassle-free way and cover a medium/large lawn quickly and efficiently with this 46cm electric-start model from Webb's 'Classic' line of high-quality but affordable petrol rotary-mowers! You'll enjoy powerful performance from a Webb DVO173 173cc Engine; low-effort operation, thanks to rear-wheel self-propulsion; and excellent versatility through Webb's provision of four cutting-modes. The WER460ES is a steel-decked machine and comes with a 55-litre catcher.

High-Spec Garden Machinery

Webb Supreme lawnmowers are a great addition to your garden-machinery collection! With industry leading Briggs & Stratton engines, quick-release folding handles and large collection capacities across the entire range, these machines are a powerful, convenient and fast way to manage your lawn.

Steel Deck

Our 'Supreme' range petrol lawnmowers are based around steel decks, these are lightweight and resistant to impact damage and corrosion.

Briggs & Stratton Engines

Powered by engines from the world's largest producer of air cooled petrol motors for outdoor power equipment. You know you'll be able to rely on the engine for years to come; that's why 9 out of 10 leading lawnmower brands count on Briggs & Stratton to power more of their products than any other manufacturer.

Wash Port

A simple and effective way to clean the underside of your cutter deck after use. All that's required is to hook up a hosepipe, turn on the tap, run the engine briefly, and the job's done!

Webb Supreme 46cm (18") Petrol Rotary Lawnmower WER18HP4

Solidly built, flexible in use and simple to operate, the British-designed Webb 'Supreme' will impress gardeners looking for a classic petrol rotary mower at a price that won't break the bank! With many of the features you would want in a four wheeled lawnmower, such as a powerful Briggs & Stratton engine, Steel Deck & rear collection & discharge capabilities, this will be a reliable and helpful machine for tackling your garden lawn.

Engine powered by:

Webb Supreme 46cm (18") Self Propelled Petrol Rotary Lawnmower WER18HW4

Offering best-in-class features, at a supremely affordable price, this superbly well-equipped petrol rotary-mower from long-established British brand Webb is worth serious consideration if you're looking to get that bit of extra quality for your money. With an option to either side-discharge, collection or mulching the grass this steel-decked, Briggs & Stratton powered 46cm lawnmower can easily tackle any job your garden lawn presents.

Webb Supreme 53cm (21") Self Propelled High Wheel Petrol Rotary Lawnmower

WER21HW4

The WER21HW4 is the largest lawnmower in the 'Supreme' range, 4-in-1 capability and a Briggs & Stratton 725EXI engine. This Steel decked mower gives you the choice of rear collection, mulching the grass, rear or side discharging, giving you options when tackling your lawn. This combined with the 53cm cutting width, it can quickly and simply deal with your lawn.

Engine powered by:

Webb Supreme 48cm (19") Alloy Deck Disc Bladed Self Propelled Petrol Rotary Lawnmower

WER19ALSP

The WER19ALSP is the flagship 19" mower from the Webb range, packed full of premium features and exceptional build quality. Featuring a powerful Briggs & Stratton 150cc engine, and an exceptionally strong and durable aluminium cutter deck with 3 in 1 functions for collecting, rear discharge or mulching. Other quality features include an 8 stage single lever height of cut, simply move the lever to the desired cutting height and the machine raises or lowers itself with one hand. Cutting and collecting performance is exceptional thanks to a large blade disc with 4 swing tip blades, ensuring no damage if an object is hit, as well as filling the large 60L collector to the brim.

WER21ALSP

The WER21ALSP is the flagship of the Webb lawnmower range, packed full of premium features and exceptional build quality. Featuring a powerful Briggs & Stratton 163cc engine, and an exceptionally strong and durable aluminium cutter deck with 4 in 1 functions for collecting, rear or side discharge, and mulching. Other quality features include an 8 stage single lever height of cut, simply move the lever to the desired cutting height and the machine raises or lowers itself with one hand. Cutting and collecting performance is exceptional thanks to a large blade disc with 4 swing tip blades, ensuring no damage if an object is hit, as well as filling the large 70L collector to the brim.

Engine powered by:

Webb Supreme 43cm (17'') Self Propelled Petrol Rear Roller Rotary Lawnmower

WERR17SP

Equipped with a rear-mounted roller and constructed around a hard wearing ABS cutter-deck, this superbly well-engineered machine from leading UK brand Webb will appeal to gardeners who appreciate a classic striped finish and rugged build-quality. It employs top-end Briggs & Stratton power, so you can be sure of superior performance and unwavering reliability; and it's able to either mulch, rear-discharge or collect, so it's ideally placed to handle typically variable British conditions. The self-propelled Webb WERR17SP 'Supreme' has a 43cm width-of-cut and is supplied with a 60-litre catcher; a combination that makes it suitable for medium- to large-scale domestic use.

Engine powered by:

Ride-On Petrol Mowers

For the larger gardens

Webb 76cm (30") Ride-On Lawnmower with Collector

WE12530

One of the most compact ride-ons in production, the 76cm Webb WE12530 is the ideal machine for gardeners looking to make their first step-up from a larger walk-behind mower! It offers three-in-one mowing and features a multi-speed manual transmission, so it will prove highly adaptable; and it boasts a tight 60cm turning-radius that works with its compact dimensions to optimise manoeuvrability. A 176-litre catcher means lengthy runs between emptying-breaks; while Webb's employment of premium Briggs & Stratton power guarantees superior performance and reliability.

Engine powered by:

Webb 76cm (30") Ride-On Lawnmower with Collector & Hydrostatic Drive

WE12530HYDRO

Webb brings you a true ride-on mower with the flexibility of a rotary mower, the performance of a Briggs & Stratton 344cc PowerBuilt™ engine and a 76cm cutting deck, making this mower ideal for the larger garden. Our ride-on comes with all of the quality features that you would expect from any Webb mower including 10" front and 15" rear wheels, electric start, a hydrostatic transmission and a fully enclosed engine for quieter operation.

Engine powered by:

Scarifiers & Rakers

For that lawn tidy up

Webb 2 in 1 Electric Scarifier & Lawn Rake WEESR

Scarifying shouldn't be scary – but if you've ever tried to remove moss the old fashioned way – spring tined rake and plenty of elbow grease – then the prospect of dethatching your lawn is enough to give even the hardest of gardeners the shivers! The Webb 1500watt Electric Scarifier will remove the moss, dead grass and thatch from your lawn without it or you breaking a sweat!

18 Bladed or 24 Sprung Claw operation

Webb 40cm (16") Petrol Lawn Scarifier & Raker WEPS400

Equipped with a Webb DVO212 Petrol Engine, offering a sizeable 40cm working-width and supplied with a 45-litre Collector, the top-quality Webb WEP400 petrol Scarifier is a powerful, fast and convenient way to refresh your lawn! It features large wheels for easy pushing; an adjustable working-height for superior flexibility of use; and space-saving foldable handlebars.

Hand Held Machines

Power in your hands

Webb Classic 23cm (9") Linetrimmer WEELT250

With its handy bump-feed head, lengthy 10-metre power-cord and ultra-lightweight build, the UK-designed Webb WEELT250 Electric Grass-Trimmer is a practical and convenient way to keep your garden shipshape! It's powered by a 250w motor and weighs just 1.3kg.

Webb Classic 25cm (10") Linetrimmer & Edger WEELT450

Boasting a beefy 450w motor and combining a telescopic handle with an adjustable cutter-head, this high-quality but affordable electric strimmer from top British brand Webb offers superior performance and excellent flexibility of use! The Webb WEELT450 weighs only 2.35kg and comes with a 10-metre mains-cable.

Webb Classic 29cm (11'') Linetrimmer & Edger WEELT650

Offering range-topping power from a 650w motor and boasting thick 1.6mm cutting-line, this high-performance mains-electric strimmer from UK garden-machinery experts Webb will take overgrown grass in its stride! Features include a telescopic shaft and an adjustable head that confer excellent comfort and versatility. The Webb WEELT650 comes with a 10-metre power-lead and weighs just 2.95kg.

Engine powered by:

Webb 26cc 2 Stroke Petrol Curved Shaft Linetrimmer WELT26

High-powered, but nevertheless lightweight and easy to handle, this entry-level curved-shaft petrol grass-trimmer from Webb is worth serious consideration if you're looking to upgrade from your old, under performing mains-driven strimmer. An anti-vibration system combines with a harness and 'loop'-type handle to ensure it ticks every box in terms of user-comfort; while its high-performance full-crank engine and large-diameter line (2.4mm) work to provide excellent cutting-capability. Weighs only 5.4kg.

Webb 56cm (22") Petrol Wheeled Line Trimmer WEPWT

The Webb WEPWT, with its 56cm cutting width and four 4mm nylon line, is perfectly equipped for when you need to clear weeds and long grass from your large garden or open space, where a handheld line trimmer is either not powerful or big enough. The 35cm wheels ensure it can easily navigate over uneven ground & the 161cc Webb engine gives you an impressive cutting power.

Engine powered by:

Engine powered by:

Webb26cc 25cm (10") Straight Shaft Loop Handled Petrol Brushcutter WEBC26

Driven by a premium 26cc full-crank engine and equipped both a line-head and brush-blade, the UK-designed Webb WEBC26 offers powerful performance and great versatility. It weighs just 6.5kg and is supplied with a shoulder-harness as standard.

Webb 33cc 25cm (10") Straight Shaft Cow Horn Handled Petrol Brushcutter WEBC33

Engine powered by:

Enjoy a step-up in performance and experience enhanced manoeuvrability with this powerful 33cc cow-horn-handle brushcutter from leading UK brand Webb! Integrated vibration-damping works to substantially reduce user-fatigue; while Webb's provision of two cutter-heads (line-head/blade) confers excellent versatility. Weighs only 7kg.
